**Enhancement of Home-Use Frozen Food Supply System, Acceleration of Growth and Expansion of Frozen Food Business**

**Completion of Frozen Food Plant 2 at Isesaki Plant, NIPPN Frozen Food Co., Ltd.**

NIPPN Frozen Food Co., Ltd. (President and COO: Kazumasa Miyata; Head office: Ryugasaki City, Ibaraki Prefecture), a NIPPN Group company, announces that it completed the construction of a new frozen food plant at the Isesaki Plant in Isesaki City, Gunma Prefecture and held a ceremony to mark the completion on November 9.

This new plant will manufacture home-use frozen food products, for which demand has been rising due to lifestyle changes, such as the NIPPN Yokubari series and the NIPPN Imadoki Gohan series, popular frozen meals contained in trays. Completion of the new plant will enhance the supply system of home-use frozen food products and accelerate the growth and expansion of the frozen food business.

The Group has been proactively investing in equipment in areas with the potential for growth, its food business and overseas business in particular. The Premix Plant at Fukuoka Mill was completed in October and NIPPN (Thailand) Co., Ltd., a Group company in Thailand, will complete construction of its frozen dough manufacturing plant in November.

The NIPPN Group will continue strengthening its business foundation and aim for continuous growth as a multi-faceted food company.
