**Strengthening Competitiveness in ASEAN Countries by Starting Premix
Production in Indonesia**
Completion of Premix Plant at PT NIPPN PRODUCTS INDONESIA

NIPPN Group (President and CEO: Toshiya Maezuru; Head office: Chiyoda-ku, Tokyo; hereinafter “NIPPN”) held a ceremony to mark the completion of premix plant at PT NIPPN PRODUCTS INDONESIA (hereinafter "NPI") on October 12 2023 with the attendance of NIPPN's executives and people involved in the construction.

For the expansion of sales of food ingredients for commercial use in ASEAN region, PT NIPPN FOODS INDONESIA (hereinafter "NFI") was established in Jakarta, Indonesia in 2014 as a sales company. In addition to NFI, which has mainly handled products manufactured in NIPPN (Thailand) Co., Ltd. until now, NPI was established in 2020 and its premix plant is in operational this time in order to meet the strong demand in Indonesia, which has the world's fourth largest population of approximately 270 million (according to Indonesian government statistics in 2020). It has obtained Halal certification from MUI (Majelis Ulama Indonesia: halal certification agency in Indonesia). Based in Indonesia with the world's largest Muslim population, NIPPN continues to work to expand its business in the ASEAN region.

NIPPN defines overseas businesses as one of the focus fields in its FY2023-2027 medium-term targets, and aims to increase the ratio of international sales from around 3% in FY 2022 to 6% or higher in FY2027. This is the third overseas premix plant, following those in Thailand and China. The operation of this plant will further ensure NIPPN’s initiatives to achieve its medium-term targets.
